#WEDRESSCHAMPIONS

2020/21

INTRODUCTION

This year, G sport bets on the creation of products collection's, using designs we consider appropriate and bold for the sports world, with inspiration on the capitals of different countries in our globe. In each one of them, it's possible to change the colors according to the teams and even change the jersey's models.

We want to offer more options and we believe we can, with our creativity, give life and extra power to a team who wears our brand.

ABOUT THE BRAND

G Sport is a sports brand textile which operates in the fields of sports fashion and technical accessories for different modalities (football, futsal, hockey, volleyball, basketball, rugby, athletics, handball, endure, downhill, padle, squash, gaming). We design all the textile range of products necessary for the athletes and merchandising for teams and sports associations/societies. G Sport outdoes itself by investing in responsiveness and costumer needs, evolving exponentially in the last years, both in the level of satisfaction of the represented entities and innovation of production materials.

HISTORY

Created in the back of the house in 2014, this company is supported by a family base with professional experience in children's textile industry. What started as a simple hobby for the youth teams of Vila de Arões club, quickly became a sports equipment company due to the many requests that were arriving from other local teams, after seeing the quality of the material and its relationship with the competitive market price. Nowadays, the children's textile business has been put aside and the focus is only on the sports textile industry. After 6 years of its first appearance in the football world, today it is sustained/supported by teams from north to south of Portugal, but also with an initial bet/bid on exports to neighboring countries, equipping teams from France, Spain, Germany, Luxembourg, Switzerland, America, among others.

Excellent quality, brilliant the facility with which you can idealize an equipment to the highest level… Thank you!

Fast delivery, good and helpful service and high quality products, 5 stars in everything.

Excellent equipment customization, great products, deliveries to the entire country on time and very affordable prices.

G SPORT PROCESSES

ORDERING PROCESSES
G SPORT

DESIGN

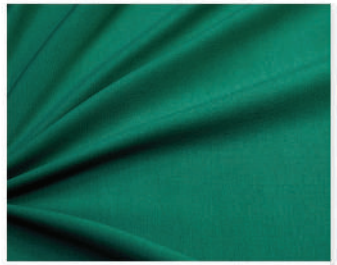
Our designers offer two quick and easy solutions. The first, with designs from previous collections, available in this catalog and in our simulator, allowing the alteration of colors and jersey models. The other option, emerged to answer all the requests, being possible to design from scratch what the client wishes.

See page 11

MODEL

The first step to initiate your equipment order at G Sport, should be to choose the jersey model you want. We have available basic or composite models, with the possibility of different collars, placement of breathable side nets or raglan sleeves. A variety of 12 models that combine key factors with the technicality of our product.

See page 21



MESH

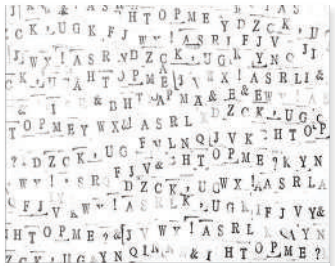
The choice of the mesh is another important step to take in an initial phase. All sublimated equipment is made with 100% technical fabric, suitable for sports. However, we offer other variations, also sporty, that can be an alternative for the client. Thunderblock and Eco-Logic are two new features for the season 2020/21.

See page 24

COLOR

We have available a palette of specific colors that can be used in any of our collections, available for the included products. However, if you want a design made especially for you, you must choose the color, and can even send it to us so we can get to the most similar color possible.

See page 25



FONT

The choice of the font comes after all the previous/remaining steps, however, it is also an important phase for the conclusion/completion of your order. We provide compatible fonts suitable to sports equipment and modalities. Thus, you can choose between the fonts available in our list and we will adapt it to your equipment.

See page 25

BUDGET

Although all the previous steps are followed/accompanied by our commercial agents, the budget is made after choosing all the processes, since we want to send the best and most appropriate budget according to your interests and needs. You should contact us and you will be redirected to one of our commercials.

G SPORT TECHNIQUES

G SPORT TECHNIQUES

SUBLIMATION

Sublimation printing on fabric is a technique that uses heat-sensitive inks that blend with the fabric. The main advantage is that the ink will become part of the structure of the printed material, and this means that the color does not fade or crack with the washes.

FAST PRINT

It is a fast, economical print system that provides quality and durability. This technique includes print on the front and back of the t-shirt, being able to personalize it as you wish in the parts mentioned.

PRINT

The print process is exactly the same as the fast print, however, it only covers part of the t-shirt, either the front or the back, being at the discretion of the customer according to their needs.

LOCALIZED PRINT

Still from the fast print "family", this technique covers only one localized area. It is the most economical option and can be a cost effective solution for, for example, training or sporting events.

PATCH

The patch we make consists of sublimating the emblem of the team, which is then embroidered all around and consequently embroidered on the chosen product.

EMBROIDERY

Embroidery is the most suitable personalization system to add value to your pieces. It is a very resistant and high quality technique that we recommend especially if looking for durability.

FLEX

Thermal bonding is the process of joining an adhesive stabilizer to a fabric or outer garment. The thermally bonded stabilizer is a base fabric with a layer of thermoplastic adhesive glue, which can be joined to another fabric upon application. heat and pressure.

2020/21
COLLECTIONS

The products in the G Sport collections can be purchased together or individually, depending on our costumers needs. For this reason, we offer a range of 41 possible options, offering in all of them quality and rigor in the manufacture of products.

PARIS
COLLECTION

INSPIRATION

Paris Saint-Germain was founded following an initiative of twenty thousand football fans who wanted Paris to have a great team. In its first season in the first league, the club ended in 16th. Today, this team is one of the best in the world. This collection inspires players who aspire to go far, with its unique design.

MADRID
COLLECTION

INSPIRATION

Madrid lives the passion for football like few other cities in the world and it is possible to enjoy football at the highest level practically all year round. For this reason, G Sport is inspired by this city full of football culture with a bold, although comfortable design, for true football lovers.

BERLIN
COLLECTION

INSPIRATION

In 1936, the Olympic Games were held in Berlin, broadcast for the first time on television and with capacity for monitoring 41 countries via radio, thus evolving in accessibility to sport. G sport is inspired by this capital, evolving sports textile technology/technicality.

LISBON COLLECTION

INSPIRATION

The Portuguese Football Team has a constant presence in the top of the FIFA World Ranking. In 2016, was crowned European champion with a goal from Éder in the 109th minute, in the second part of extra time. It was the first international title of Selection A. We were inspired by the conquest, for athletes who fight until the last minute.

DUBLIN
COLLECTION

INSPIRATION

In the first football game between Ireland and England, in 1882, the English won 13x0 to the Irish. After that, Ireland focused on improving and participated in 3 World Championships. The choice of this capital is due to the perseverance and willingness to win that a team can achieve, together.

RIO DE JANEIRO COLLECTION

INSPIRATION

Called as "Brazilian football school", football in Brazil is known for its creativity, fluidity and offensive style of play. The Rio de Janeiro collection was designed to appeal to the comfort of movements and the innovation of game equipment, for athletes who do not miss an opportunity for a good dribble.

AMSTERDAM COLLECTION

INSPIRATION

The Netherlands surprised the 1974 world cup with its modern football, both for its tactical design and game concept, influencing the change and philosophy of the game of many clubs. Clockwork Orange inspires our designers by difference and change. Collection suitable for distinguished athletes.
